We pride ourselves here at Tumbleweed Stained Glass, as having some of the best professional classes and instructors in both fusing and beginning/intermediate classes in the Valley. Because our instructors have busy schedules, we offer classes depending on the time these instructors have when available to teach. In order to serve your, the student, it is best to call the Shop (480-838-1711) to see when the next class(es) will be held.

Intermediate Stained Glass Classes:
Once a week for 4 consecutive weeks (three-hour classes)
Learn advanced techniques in both lead and copper foil construction
Receive additional instruction on more complicated projects
Construction anything you want from copper foil panels to kaleidoscopes to panel lamps and more (Projects are limited to a 2x2 size)

NEVER WEAR OPEN-TOED SHOES TO ANY OF OUR CLASSES!
